

Homework Menu

Spring 1

English

WALT: understand how to use a range of punctuation.

Write about a topic of your choice - anything that might interest you.

Include full stops and an exclamation mark

Include full stops, an exclamation mark and question mark

Include full stops, exclamation marks and commas to separate items

Experience

WALT: understand what it means to be kind

Display a random act of kindness.

Record in your book what you did, how it made you feel and how it made the person feel.

Maths

WALT: find coins to pay for items

Choose things that you would want to buy in a shop or online. They should be priced at £10 or less. Work with a grown up and a purse of coins/notes to find out how to pay the exact amount. List or draw the coins/notes you would need to use for each item.

Choose 1 item

Choose 2 items, identify their individual prices

Choose 3 items, identify their individual price and combined price.

Challenge - If there is more than 1 way, try to find the way which uses the fewest coins.

Maths

(Compulsory to be completed each week)

Practise your times tables on Times Table Rock Stars weekly to prepare for the test on Monday

Spellings

(Compulsory to be completed each week)

Complete the spelling worksheet.

History

WALT: explore how buildings have changed over time.

Interview your grown-ups at home to find out how your home has changed over time. Think about changes such as furniture and structural change.

This can be recorded as a drawing

This can be recorded as a table - now vs then

This can be recorded as a written paragraph, using descriptive language

Challenge: Can you research what your house was like 50 years ago?

Computing

WALT: identify technology

Can you identify technology around a location?

Can you draw pictures to show technology around your home?

Can you draw pictures and label them to show different technology around you?

Can you draw pictures and write sentences about the different technology around you and how it is used?

Challenge: Can you design and create your own piece of technology?

Geography

WALT: explore a range of local buildings.

Go for a walk around your local area and write about different buildings that you see and explore what their purpose is. E.g. local garages to fix cars.

Identify the type of building

The purpose of the building

Explore its history- how long has it been there?

Art

WALT: practise our drawing skills

Skylines are created by a group of buildings. Some cities are famous for their skylines. Research a city whose skyline inspires you. Buildings are a combination of simple shapes grouped together. Practise adding lines to outline and add detail.

Challenge: Add more London buildings to your picture.
